

The art of Pioneering

The Meurabrew

Inspired by René Magritte
Belgian Painter

TRADITIONALLY PIONEERS SINCE 1845

Meura's mission statement

**Design, manufacture and sell
worldwide **brewing process**
equipment for breweries,
distilleries, extract producers,
keeping a length ahead thanks to a
performing **research & development**
activity.**

Family owned since 1845

From 1845 till 1986 the **MEURA family** owned the company.
The 6th generation sold their share to the **BOCCARD family** in 1986.

Boccard enterprises is family owned for four generations founded by Joseph BOCCARD in 1918 in Lyon, France.

Patrick & Bruno Boccard are today managing the company.

The Food-Pharma divisions are **leaders** in process technologies:

BREWERY

PHARMACY

FOOD

COSMETICS

OENOLOGY

MEURA Technologies & Service

**MeuraTechnologies &Services; merger of Meura's R&D and Meura's Technical & Technological After Sales Services.
New facilities since January 2015 (Belgium)**

Main activities

Meura is specialised in the **brewing process; mainly used in 3 industries:**

1) Beer brewing

Since its foundation in 1845 Meura is active in this industry. Still biggest part of the business.

2) Malt/grain extract production

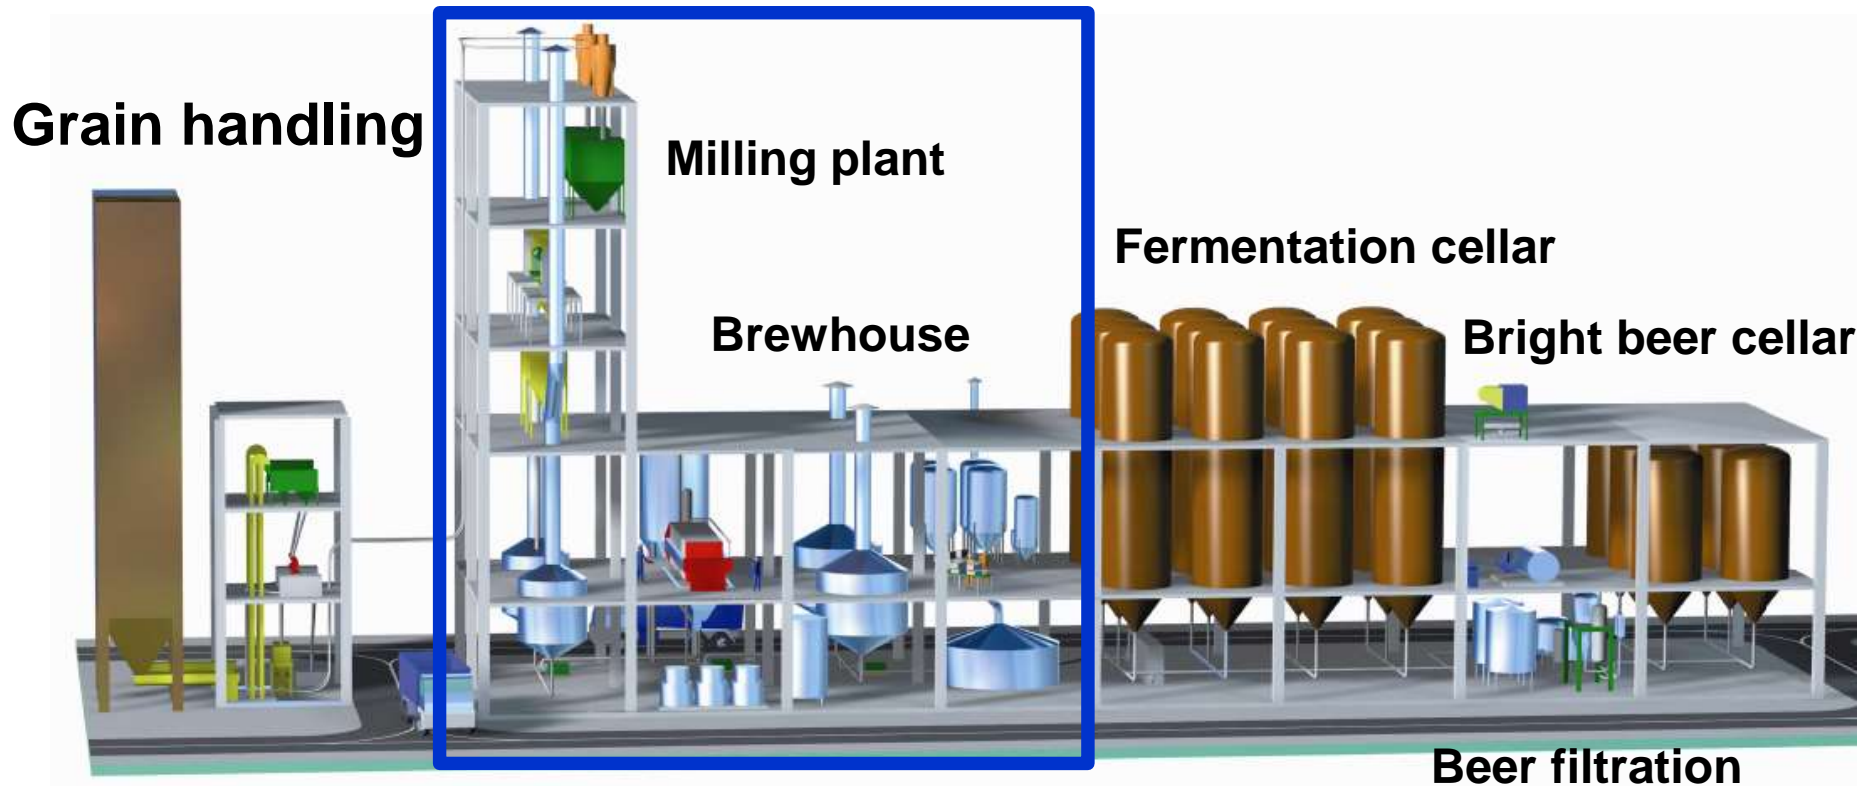

The Meura2001 filter is the leading technology in this industry. Yearly about 10-25% of the turnover is made in the extract industry.

3) Grain distillers

The first references with Pernod-Ricard, Diageo, Distell, Russian Standard resulted in an increasing interest from the distillers since last years.

Main activities

About 25% of the world beer volume and 70% of the malt extract is passing a brewhouse with Meura equipment.
